DEAR Fellow Patriots,

Thank you so much for the letter. It did not arrive until yesterday, but it came just in time. It was nice to see so many signatures of people who actually understand, and care. As a military veteran, I NEVER thought in a million years that we Americans would again be facing down a tyrannical government. But freedom and liberty has never been FREE. And we are all faced with paying the cost.

The regime of Joe Biden is trying to break the "spirit" of America. Which is rather funny that such a weak and dimwit old man, even has the nerve to take on such an unwinnable task. But then, so was Hitler. And like Hitler, Crazy Joe is using the corrupt forces of the FBI, to reign terror down on all of those who dare to defy Joe's plan. This ordeal has pretty much ruined the lives of every front line Patriot who was arrested. We have lost our homes, businesses, jobs, and dreams. But we will NEVER surrender our spirits and love for freedom. The FBI, has used the "Patriot Act" against us to "cancel" our bank accounts, credit cards, insurance policies, investment accounts, and pass ports. We have all been placed on the Terrorism Watch List, as well as the No Fly List. The only punishment that has yet to occur, is physical exile! This is the evil which has resulted from American complacency. But in my heart, I know that in the end, We The People, shall triumph.
